AND OTHER POEMS

*Donald Trump*

Introduction by  
**Sarah Louise Palin**

THE BEST NUMBERS

MANY PEOPLE ARE SAYING  
MY SPEECHES ARE PURE POETRY.  
I HAVE THE BEST WORDS.

# Mon Juan

And I love Mexico.  
I love Mexico,  
I love China,  
I love many of these countries  
that rip us off because we have leaders  
that are incompetent and don't know what they're doing.  
I love these countries.  
They're great.  
I have thousands and thousands of Hispanics.  
We're going to Nevada.

# Fumarole Blues

And the police are going to be careful  
and they're going to be studied  
and they're going to be  
    but we have to restore  
    law and order.  
What happened in Dallas,  
where all of those people  
were shot down. Absolutely,  
absolutely for no reason.  
Viciously shot down,  
and so many others.

# I Carry My Smarts With Me

I mean, we have great people.  
We have the most loyal people.  
We have the smartest people.

    You know,  
so many of my people,  
they're so smart.  
They like to say,  
well, Trump, I don't know  
if he's got this right

    let me tell you,  
we have the smartest people.  
We have the people  
that are the smartest  
and the strongest,  
and the best  
and the hardest working.

## Hoosiers

That's only because we allow it to happen.  
And I like Mexico.  
And I respect the leaders of Mexico  
because they're much smarter,  
they're much street smarter,  
but they're much smarter  
and more cunning than our leaders.  
But you have to see  
what's going on.  
And one of the reasons  
I won Indiana was Bobby Knight,  
because he's the best,  
he's the greatest.

# Childe Donald

So, he asked me a question,  
question was fine.  
You know, professionally written.  
So, he asked me a question,  
- good.  
I give him an answer,  
I blow him away.  
- Right.  
Everyone says Trump won the debate.

# I Hear America Cringing

Then Saddam Hussein throws a little gas.  
Everyone goes crazy.  
Oh, it's because of gas.  
They go back and forth.  
It's the same.  
And they were stabilized.  
And I said, if you go after one or the other,  
in this case Iraq,  
you're going to destabilize the Middle East.  
That's what going to happen.  
You're going to destabilize the Middle East.  
And that's exactly what happened.  
We totally destabilized the Middle East.

# The Wall Not Taken

Folks, when I say, "We're going to build a wall."  
Most of them say, "You can't build a wall -  
- build a wall."

In China 2,000 years ago,  
they built the Great Wall of China,  
which is bigger than any wall  
we're thinking about,  
- OK?

The Great Wall of China goes 18,000 miles.  
We have 2,000 miles of which we  
only need 1,000 miles,  
because you have a lot of natural barriers,  
- right?

that are extremely tough to get across.  
We have 1,000 miles.  
So, China has 18,000  
or 13,000 miles, and we  
have 1,000 miles.  
We have modern cranes.  
We have Caterpillar tractors  
I want to use Caterpillar

# Let America Be 'Murica Again

Even my hats, they're made in America.  
It wasn't easy to find a guy that could  
do those hats. You know what I'm talking about.  
I see so many knock-offs of my hat, right?  
"Make America Great Again."  
I see these things that are out of plastic.  
They're out of all sorts of crap.  
Mine are made in America.  
And honestly, they do a great job,  
but they don't produce as many as I'd like  
because, frankly, there's a big -  
I mean, it's amazing.  
Those hats are amazing.

## The Clap

I don't want to wait  
for your freaking applause.  
We have,  
I have so many,  
we have so much potential.  
There are so many  
things to do.  
I don't really sort of  
want to wait.  
I want to do it.  
And I just noticed,  
I did it again. You were getting ready  
to give a big applause,  
because you like that,  
and I'm speaking.  
I killed the Applause.
